Technical Assistance detailled information

1.1 Publication

C

1.1.1 (a), (b), (c), (d), (e), (f), (g), (h), (i), (j)

Indicative date of implementation
31 December 2023

Definitive date of implementation
31 December 2028

Assistance required for implementation

? An assessment of the best method for publishing information accessible free of charge to all interested parties, taking account of regional initiatives and responsibilities.
? An electronic platform accessible to all departments that provides information on import/export and transit activities accessible and user friendly to all stakeholders in the form of a Trade Information Portal.
? Assistance in identifying the platform, building it, providing training for future development and establishing a local capacity to maintain it in all relevant agencies.
? Review the legal framework for provision of information free of charge for all agencies engaged import/export/transit process.
? Provide advice and assistance to identify the information requirements of all private sector stakeholders so that it can be freely and effectively delivered.
? Review the coordination and delivery of information at departmental, national and regional levels to establish an effective structure.
? Ensure that all activities are coordinated with the Ministry of Innovation, Science and Smart Technology (MIST).

7.4.2
7.4.3
7.4.4

Indicative date of implementation
31 December 2019

Definitive date of implementation
31 December 2024

Assistance required for implementation

? The current risk management processes by all agencies should be critically reviewed with a view to ensuring they are legally based, relevant, effective and proportional to the risks. This will include examination of inter-agency cooperation and coordination over risk including access to relevant IT systems, national, regional and international.
? Training to be undertaken with all agencies in the identification of risks.
? The development of an analysis capability that produces profiles to ensure the proportional application of controls in all agencies.
? Ensure agencies are better equipped to provide information to the stakeholders on the risk management process to enhance their understanding of its ability to support their business.
? Identify the need for and ensure the adequate provision and maintenance of IT facilities, databases and other technology including scanners across all agencies necessary for the timely application of risk management.
? Develop appropriate training processes for organisations associated with the import/export process including the docks and airport in identifying risks with a focus on sanitary and phytosanitary, contraband and national security issues.

Definitive date of implementation
31 December 2024

Assistance required for implementation

? Review the pilot project to ensure that it is representative of all areas of business activity and will provide an effective basis for the development of an AO programme.
? Based on the results of the pilot and discussion with the business community of their experience of the process, adapt the AO development appropriate to the Barbadian business condition.
? Provides support to the customs training programme for the development of an AO.
? Develop and implement an awareness programme for business community to ensure effective take up of the AO process.

Tags: *Diagnostic and Needs Assessment, Human resources and training, Awareness-raising*

C

10.1.1 (a), (b), (c), (d)

Indicative date of implementation
31 December 2020

Definitive date of implementation
31 December 2023

Assistance required for implementation

? All agencies are supported in undertaking a review of their current documentation requirements to identify areas for simplification of the process including the removal of no longer essential documents.
? Technical assistance for customs in relation to the clearance times. A holistic approach to review the customs documentation and ensure full compliance with the regional initiatives to harmonise customs legislation.
? All border agencies review documentary requirements to ensure maximum harmonisation and simplicity.
? Identify in all agencies opportunities for development and acceptance of e-documentation taking fully into account the opportunities for SPS e-certification.
? Create a mechanism for maximising the awareness of the business community of the opportunities to use e-documentation.
? Assist in maximising effective engagement with CARICOM in the development of electronically certified documents.
