**Assistance required for implementation**

Support for: Development of Policy framework and procedures, ICT and Infrastructure equipment; Human Resources/Training for personnel manning the Enquiry points

**Tags:** *Information and communication technologies (ICT), Legislative and regulatory framework, Infrastructure and equipment, Human resources and training*

**Donor Agencies:** World Bank

**Progress reported**

Previous support from a Development Partner to develop a Trade Facilitation Enquiry Point was not fully completed. Each of the main regulatory border agencies have their own enquiry handling procedures.

Ghana needs assistance to conduct a review of current procedures and develop a consistent approach to enquiry handling to ensure that enquiries are handled centrally to improve consistency, transparency, accountability and in a timely manner.

It is envisaged that the enquiry points will be incorporated within the functionality of the new Trade Information Portal.

Support for Development of Policy framework, mechanism and procedures for consultations with Traders

**Tags:** *Legislative and regulatory framework*

---

**Donor Agencies:** to be determined

**Progress reported**

Each of the main border agencies are convening regular formal engagements events involving all relevant private sector stakeholders when proposed new laws, regulations, policies and procedures are being introduced. Also ad-hoc meetings are arranged when necessary. The Integrated Customs Management System (ICUMS) is also used effectively as a platform to disseminate proposed changes, along with emails and SMS messages to relevant trade bodies. This was validated during meetings with private sector representatives. On this basis, Ghana is satisfied that it has met the requirements of this measure.

**Assistance required for implementation**

Support for: Development of procedures; ICT and Infrastructures equipment; Human Resources/Training for Customs Officials and stakeholders

**Tags:** *Information and communication technologies (ICT), Infrastructure and equipment, Institutional procedures, Human resources and training*

**Donor Agencies:** to be determined

**Progress reported**

Provision for pre-arrival processing is outlined in Section 50 of Customs Act 2015 (Act 891)

The deployment of ICUMS in 2020 nationally has facilitated pre-arrival processing and widely used by the trading community. This was validated during meetings with private sector representatives who indicated that this has reduced the average dwell time of consignments. On this basis, Ghana is satisfied that it has met the requirements of this measure.

7.2

**Indicative date of implementation**

22 June 2020

**Definitive date of implementation**

22 June 2023

**Assistance required for implementation**

Support for: Development of procedures for e-payment; ICT and Infrastructure equipment so as to secure inter-bank and multi-platform online payments

**Tags:** *Information and communication technologies (ICT), Legislative and regulatory framework, Infrastructure and equipment*

**Donor Agencies:** to be determined

**Progress reported**

The deployment of ICUMS in 2020 nationally has facilitated the provision of e-payment and is being widely utilized. Currently, all 24 commercial banks are connected to the ICUMS system and payment options have been expanded to cover visa, internet banking, walk-in banking, and mobile money. This was validated during meetings with private sector representatives who informed that payments are routinely accepted electronically. On this basis, Ghana is satisfied that it has met the requirements of this measure.

7.4.1  
7.4.2  
7.4.3  
7.4.4

#### Indicative date of implementation

22 September 2020

#### Definitive date of implementation

22 March 2025

#### Assistance required for implementation

Support to outline and harmonize sustainable Risk Management procedures and processes needed to identify risks and adequately classify them;

Support to procure ICT infrastructure (modern scanners) and equipment, likewise train and build capacities of relevant stakeholders in Risk Management

**Tags:** *Information and communication technologies (ICT), Legislative and regulatory framework, Infrastructure and equipment, Human resources and training*

**Donor Agencies:** World Bank

#### Progress reported

The deployment of ICUMS in 2020 nationally has facilitated the provision of a risk management module for customs and other regulatory border agencies. ICUMS incorporates automatic risk profiling/selectivity and the channelling of consignments, however, the incidence of physical examination remains relatively high.

Ghana needs assistance in developing risk management strategic framework documents for all regulatory border agencies, to review and update processes and procedures, to improve the success rate of interventions, and deliver specific risk management training to risk management officials.

7.5.1  
7.5.2  
7.5.3  
7.5.4

**Indicative date of implementation**

22 September 2020

**Definitive date of implementation**

22 September 2023

**Assistance required for implementation**

Support for: the development of procedures and for carrying out capacity building initiatives so as to ensure that Post Clearance Audit (PCA) related concerns are accurately dealt with by Ghana Revenue Authority – Customs Division

**Tags:** *Legislative and regulatory framework, Institutional procedures*

**Donor Agencies:** World Bank

**Progress reported**

Provision for post clearance audit is outlined in Section 7 of Customs Act 2015 (Act 891).

A Customs PCA unit is established but currently is not operating to its full potential for a number of reasons.

Ghana needs assistance to strengthen the PCA Policy Framework to ensure PCA activities are delivered in line with international standards. This is even more important now that an Authorized Economic Operator (AEO) programme has recently been introduced which demands more post clearance audit activities to be conducted.

7.6.1  
7.6.2**Indicative date of implementation**

22 August 2020

**Definitive date of implementation**

22 March 2024

**Assistance required for implementation**

Support for carrying out capacity building programmes and the development of a policy framework (legal) and a manual of procedures to spell out the needed steps to be undertaken by Ghana Revenue Authority - Customs Division in ensuring compliance with the article

**Tags:** *Legislative and regulatory framework, Institutional procedures*

**Donor Agencies:** United States Agency for International Development

**Progress reported**

During the period 2022 to 2023, Ghana conducted a comprehensive Time Release Study. The study covered one seaport (Tema), one airport (Kotoka International Airport), and two land borders (Paga and Afloa). The study involved representatives from both the public and private sectors. A compressive report was prepared and is available on Customs website and will be reported and discussed at the next National Trade Facilitation Committee (NTFC) meeting. Report recommendations will be considered for implementation.

Future TRS dates will determine by NTFC.

On this basis, Ghana is satisfied that it has met the requirements of this measure.

7.7.1	<b>Indicative date of implementation</b>	<b>Definitive date of implementation</b>
7.7.2 (a) (i), (ii), (iii), (iv), (i), (ii)	22 February 2021	22 September 2024

7.7.4		
7.7.5		
7.7.6		
<b>Assistance required for implementation</b>		
Support needed to organize World Customs Organization (WCO) experts facilitated training programmes for officers in the validation process;		
Support for development of policy frameworks and procedures for Customs and other regulatory agencies; and		
Support to set up a dedicated desk (secretariat) with support to procure the requisite ICT infrastructure needed to meet the needs of operators and other relevant institutions		
<b>Tags:</b> <i>Information and communication technologies (ICT), Legislative and regulatory framework, Infrastructure and equipment, Institutional procedures, Human resources and training</i>		
<b>Donor Agencies:</b> United States Agency for International Development		
<b>Progress reported</b>		
Provision for Authorized Operators (AO) is outlined in Section 8 of Customs Act 2015 (Act 891).		
Following the process of due diligence six (6) applicants have were originally granted AO status. This has recently been increased to eight (8) and applicants are being considered.		
The ICUMS platform is automatically routing related consignments to the “blue channel” for future PCA activity.		
This was validated during a meeting with a private sector representative, an accredited AO, who had a good understanding of the process and the related benefits.		
On this basis, Ghana is satisfied that it has met the requirements of this measure.		

7.8.1 (a), (b), (c), (d), (e), (f), (g), (h)	Indicative date of implementation	Definitive date of implementation
7.8.2 (a), (b), (c), (d)	22 August 2020	22 March 2024
7.8.3		

#### Assistance required for implementation

Support to review existing procedures in relation to expedited shipments to take into consideration institutions and regulatory agencies such as Plant Protection and Regulatory Services Directorate (PPRSD) of Ministry of Food and Agriculture (MOFA), Ghana Standards Authority (GSA) etc.

Support for carrying out training and capacity building initiative by the Courier Team (Single Window platform operator/s for both old and new stakeholders; and

Support to establish a Customs laboratory at the cargo terminal (cargo handlers)

**Tags:** *Legislative and regulatory framework, Infrastructure and equipment, Institutional procedures, Human resources and training*

**Donor Agencies:** to be determined

#### Progress reported

There are several different processes or procedures in place to facilitate shipments expeditiously. This involves all regulatory border agencies and includes relevant procedures at land borders, seaports and at the international airport. All processes are fully outlined on the ICUMS platform. This was validated during meetings with private sector representatives who confirm that expedited shipments processes are available for use. On this basis, Ghana is satisfied that it has met the requirements of this measure.

7.9.1 (a), (b)  
7.9.2  
7.9.3  
7.9.4

**Indicative date of implementation**

22 February 2022

**Definitive date of implementation**

22 March 2025

**Assistance required for implementation**

Support for development of a policy framework and procedures for Customs and other regulatory agencies and stakeholders likewise support for procurement of standard scanners to meet international standards

Support for procurement of standardized ICT infrastructure and equipment to monitor perishables and ensure temperature regulations

Support for development of simplified export procedures and associated training and sensitization programmes for officers and stakeholders

**Tags:** *Information and communication technologies (ICT), Legislative and regulatory framework, Infrastructure and equipment, Human resources and training*

**Donor Agencies:** United States Agency for International Development

**Progress reported**

With the support of USADI work continues through the NTFC Technical Working to develop a standardized SOPs for multi-agency treatment of perishable goods. This work includes the alignment of working hours and improvement of joint inspection processes and procedures. It is anticipated that this work will be completed by end quarter 2025.

8.1  
8.2 (a), (b), (c), (d), (e)

**Indicative date of implementation**  
22 February 2021

**Definitive date of implementation**  
22 September 2025

---

**Assistance required for implementation**

Support to pass national legislations (benchmarking and case studies informed by best practices), develop policy framework in the establishment of integrated border management teams to identify required stakeholders and formalize linkages;

Support for procurement of ICT infrastructure and communication tools to enhance intelligence gathering and information sharing; and Support for procurement of vehicles to enhance mobility and coordination.

**Tags:** *Information and communication technologies (ICT), Legislative and regulatory framework, Infrastructure and equipment*

---

**Donor Agencies:** to be determined

**Progress reported**

In general terms cooperation and collaboration between regulatory border agencies and other stakeholders is good. However, challenges exist concerning aligning staffing levels and working hours at all entry and exit points.

Formal committees are established at key locations and organize quarterly meetings, but these tend to focus on security matters.

Ghana needs support to enhance overall coordination to include alignment of working hours, procedures, and availability to conducting joint controls at all times.

10.1.1 (a), (b), (c), (d)

**Indicative date of implementation**

22 June 2020

**Definitive date of implementation**

22 March 2024

**Assistance required for implementation**

Support to undertake capacity building initiatives facilitated by WCO experts to help Ghana become compliant with the Revised Kyoto Convention (RKC)

**Tags:** *Legislative and regulatory framework*

**Donor Agencies:** to be determined

**Progress reported**

The deployment of ICUMS in 2020 nationally has provided standardization of documentation involved in the clearance process across ports and land borders and this has helped facilitate trade.

This was validated during meetings with private sector representatives who confirm that documentations are standardized at all entry and exit points.

On this basis, Ghana is satisfied that it has met the requirements of this measure.

### Assistance required for implementation

Support for development of a legal framework within which information sharing and intelligence in the context of Customs Cooperation could be enhanced

**Tags:** *Information and communication technologies (ICT), Legislative and regulatory framework*

**Donor Agencies:** to be determined

### Progress reported

Provision for information exchange is outlined in Section 11 of Customs Act 2015 (Act 891). Ghana has a number of bilateral and multilateral agreements in place and in the process of finalizing other agreements. Ghana needs support to enhance the overall level of cooperation and collaboration by ensuring all MOUs and Mutual Administrative Assistance Agreements (MAAAs) continue to be relevant, effective and fully utilised. This may involve conducting a stock take review of all existing agreements and identify gaps and establish new agreements to be signed.
