

Leveraging the private sector to deliver quantifiable impact

WTO Committee on Trade Facilitation

Geneva, 5<sup>th</sup> October 2023

## GLOBAL ALLIANCE FOR TRADE FACILITATION WHO WE ARE

We are a public private partnership for trade-led growth, supporting governments in developing and least developed countries in implementing the WTO Trade Facilitation Agreement (TFA).

#### WHAT WE DO

By emphasising digitalisation and delivering other best practices, Alliance projects cut through red tape and end costly delays at borders, bringing together governments and businesses of all sizes as equal partners to deliver targeted trade reforms.

### **OUR PURPOSE**

To drive economic growth and opportunity for everyone by boosting international trade

#### **OUR VISION**

A world where cross-border trade is simple, safe, and inclusive

# GLOBAL ALLIANCE FOR TRADE FACILITATION MEASURING IMPACT

### **Activities**

To end-2022, Alliance initiatives achieved **Bangladesh Ecuador Thailand** Morocco an initial 10x return on investment, saving US\$ 60 million in just seven project countries. Brazil Fiji Mozambique **Tunisia** Jordan Cameroon Peru **US\$ 60 million** Colombia Madagascar Senegal Initial return on investment **10**x

## MEASURING IMPACT – INDIRECT COSTS

- The interrupted information flow (for example missing trade documents for customs clearance) will interrupt the material flow of goods.
- If goods cannot leave or enter another country, the buyer of the goods will defer payment - therefore the financial flow is interupted.

We pay particular attention to measuring the impacts that faster, more reliable obtention and transmission of information have on cross-border trade.

This includes capturing the indirect costs of delays and long lead times, such as wasted work hours, late delivery penalties, lost orders, extra storage and inventory costs, and demurrage and detention charges.

Such indirect costs have cascading effects and can severely impact supply chains, drive up production costs and hurt the reputations of both importers and exporters, significantly eroding trade competitiveness.
