Practices, SW
Synergy**

04

**Target &
Challenges**

Context

77 Agencies involved in Regulatory compliances

Complete absence of Risk based approach for regulatory compliance – manual processes in Pre PSW scenario

Risk Management Vs Controls/Authority erosion concerns

Focus on Revenue Collection/Regulations not on Trade Facilitation

PSW operates as an enabler; Compliance of Paragraph 4 of Article 7 of WTO's TFA (RM for other border controls)

***450 M USD spent annually more than South Asia Average on regulatory compliances**

●●● IRMS Drivers

Safety & Security Controls

Food safety
 Bio security
 Transport Security
 Safety Standards
 Supply Chain
 Sustainability

Performance & Planning

Inter agency
 Collaboration
 Communication
 Targeted
 Intervention
 Expedited
 Clearance

Revenue & Compliance

Misdeclarations
 Intellectual
 Property
 Contrabands
 Local Industry
 protection

Optimized Resource Allocation

Human Resource
 Financial Resource
 Technological
 Upgradation
 Cost Vs ROI

●●● IRMS Cardinals

OGA Enablement

Capacity Building, 360-degree access & Empowerment

Smart Solutions, Standardization, Impact Assessment

Process Harmonization

Sustainable Operation

COE, Targeting, R & D, Tech Enhancements

Stakeholder/ Need awareness, Continuous Engagement

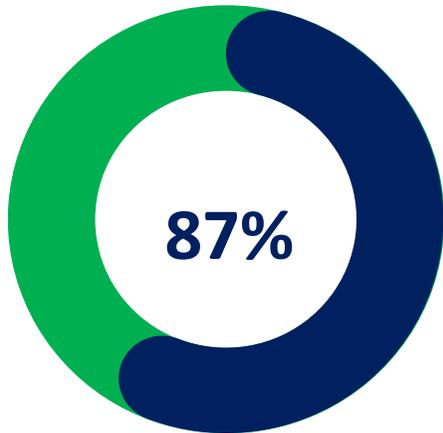

Proactive Change Management

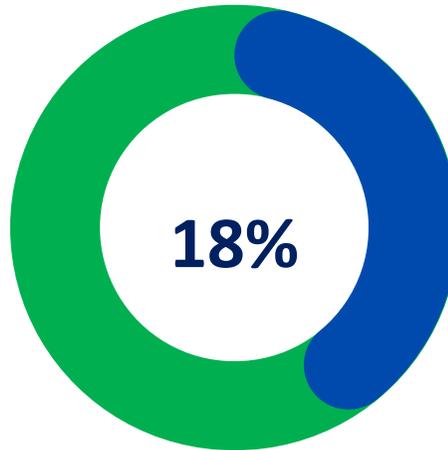

••• Our Journey

2019-Foundational work-IRMS environmental scan
2020-IRMS Framework Design
2021-Software development
2022-Governance Structure Design
2023-IRMS Rules
2023-24 Roll out & Implementation (ongoing)

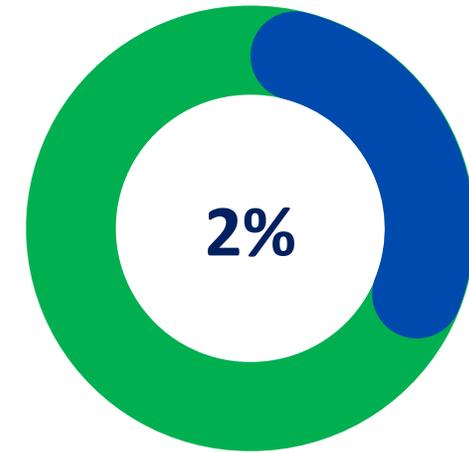

16,133 LPCOs Issued
through Green Channel
till 09th April 2024

DPP Import Permit
w.e.f. 17th August 2023

DPP Export Certificate
w.e.f. 22nd January 2024

AQD Export Certificate
w.e.f. 22nd January 2024

Best Practices

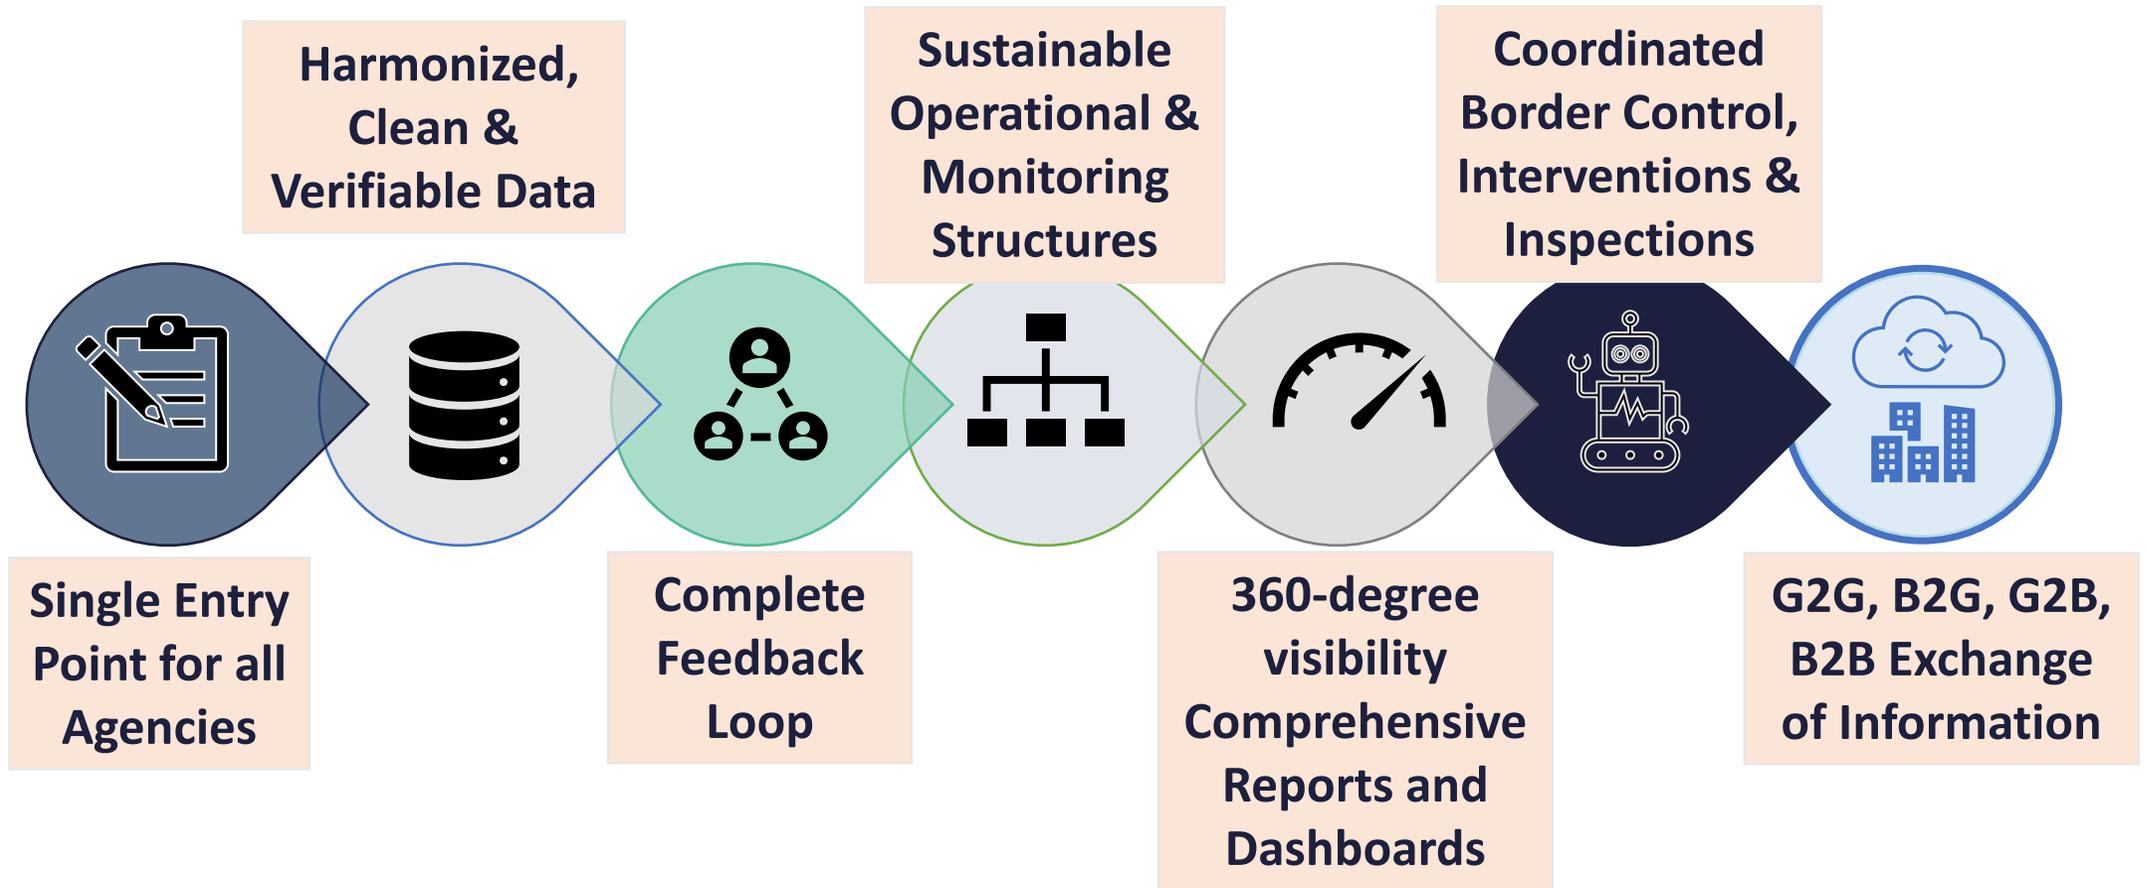

Risk Management (Policy)

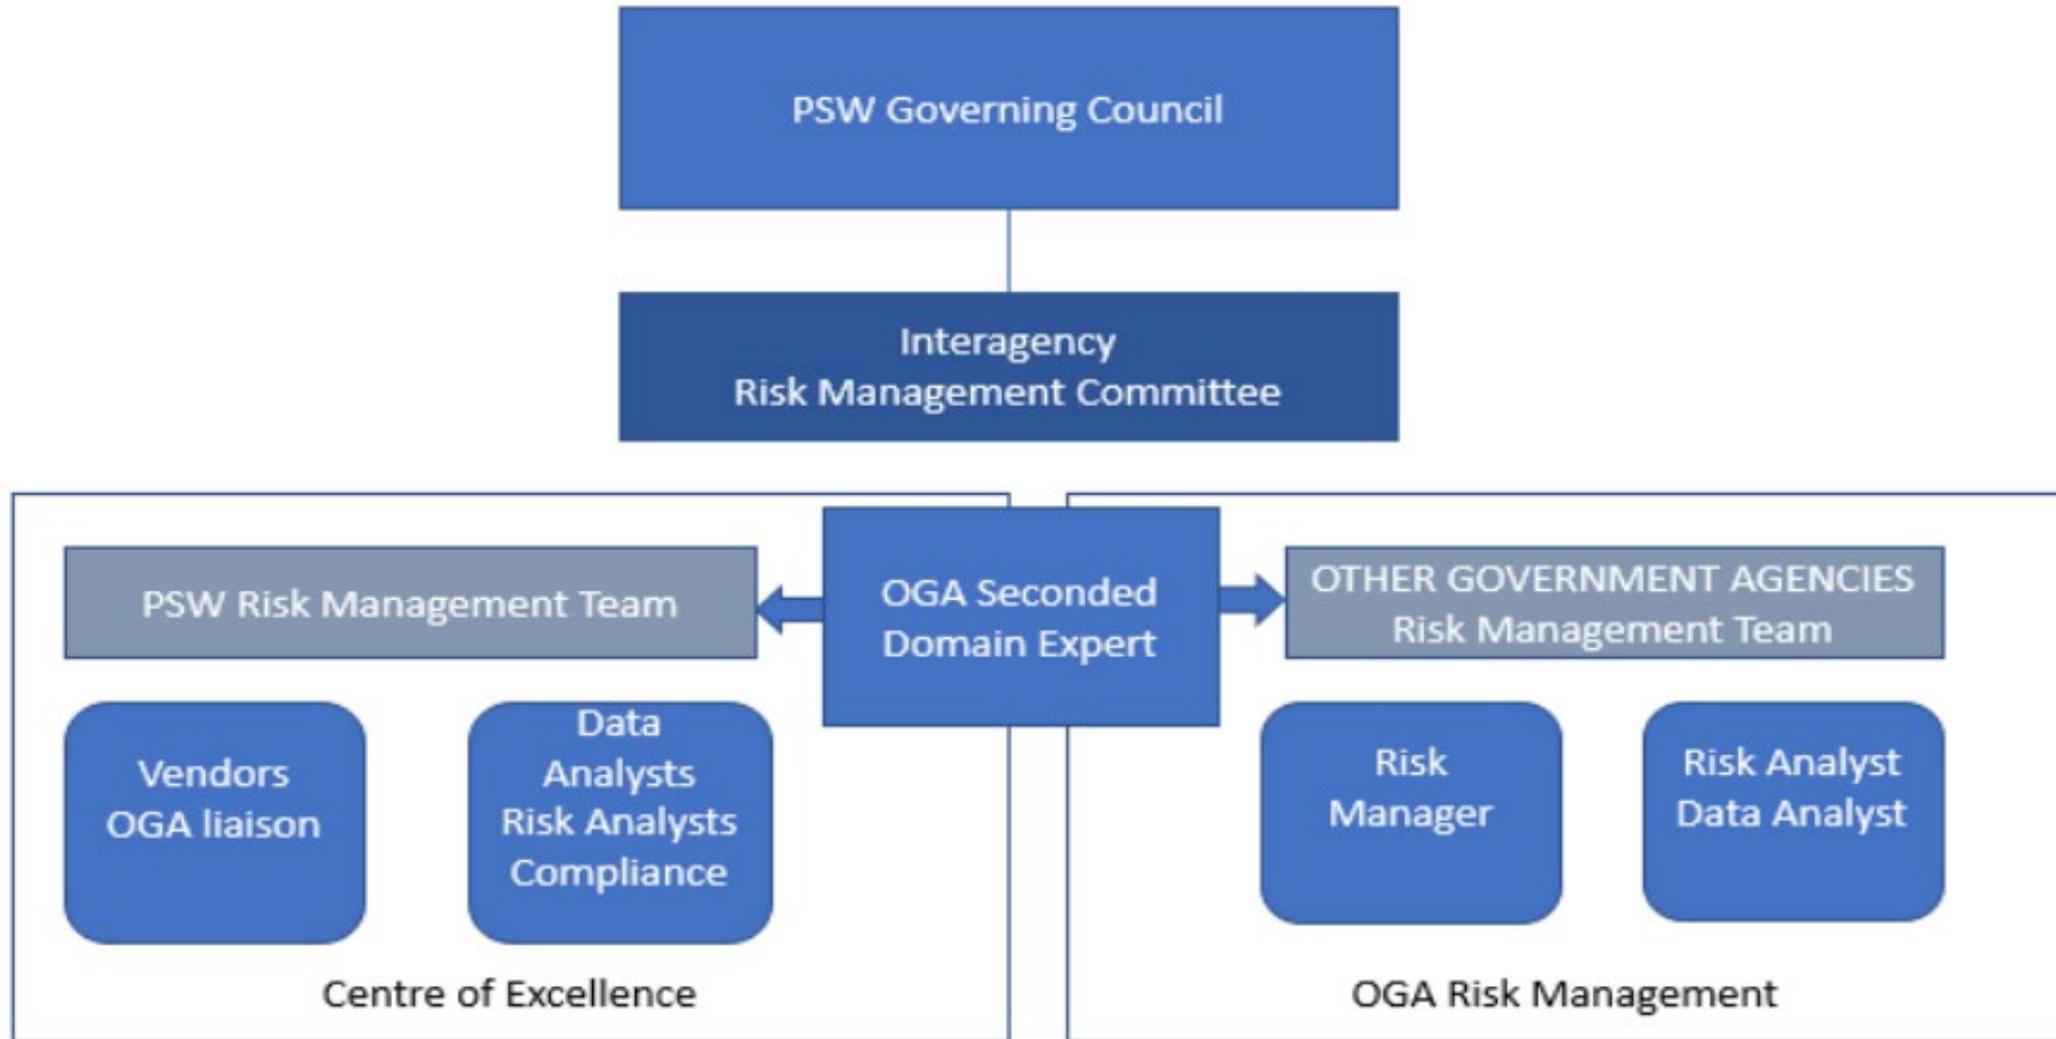

Risk Assessment (Operation)
