# Past project performance

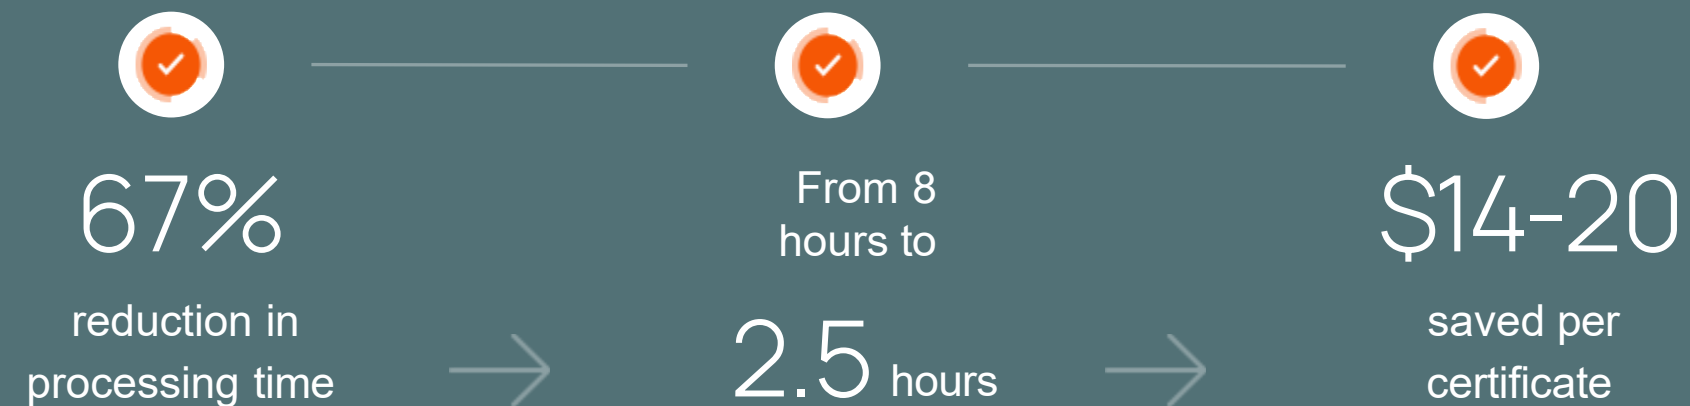

## Showing results

⚙️ PROCESS OPTIMISATION ✨ DIGITALISATION

### Ecuador

Electronic phytosanitary certificates reduced processing time by **67%**, saving **\$6.2 million** annually.

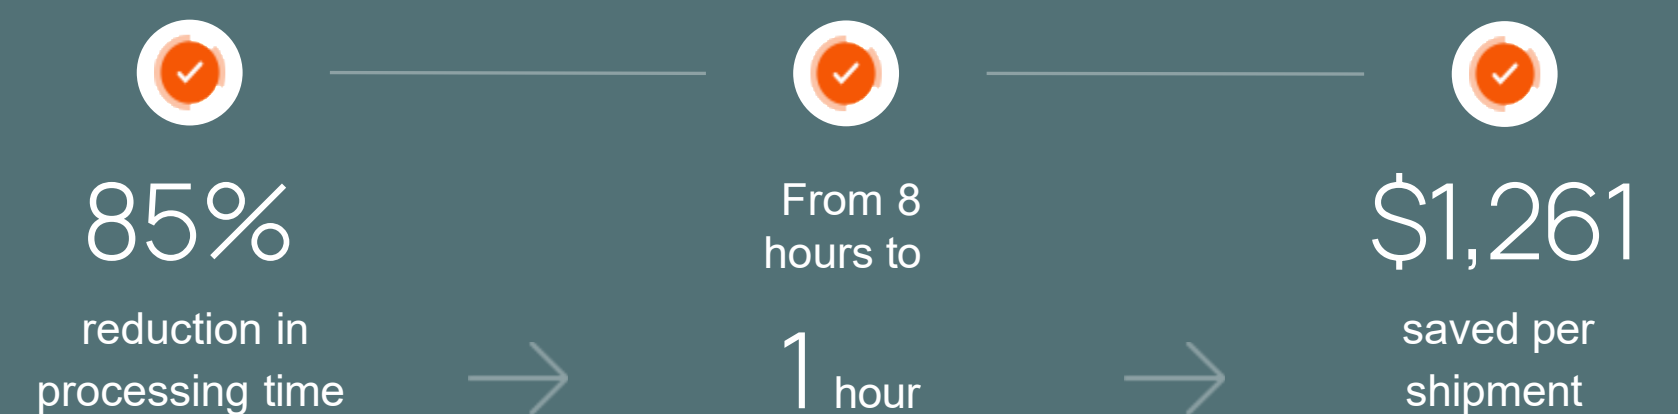

Annual savings:

**\$6.2M**

### Guatemala

We partnered with the public and private sectors in Guatemala to automate documentation procedures at the country's four main cargo ports, creating greater uniformity and efficiency in line with international standards.

Annual savings:

**\$4M**

# Past project performance

## Showing results

⚙️ PROCESS OPTIMISATION ✨ DIGITALISATION

### Fiji

Electronic phytosanitary certificates streamlined imports and exports, boosting trade competitiveness in Fiji's vital agricultural sector.

Streamlined  
border processes

Reduced time  
and cost of trade

Increased trade  
competitiveness

"The ePhyto Solution is a game-changer for our export line. There is no more waiting time for the approval and issue of the certificates. The GENs allows exporters to be more efficient"

Ranitesh Kumar, General Manager, Mahens Export

### Indonesia

We supported the government in modernising its risk management system for fish imports – reducing clearance times and improving food safety.

40%  
reduction in physical  
inspections

Faster export  
clearances

Reduced time  
and cost of  
trade

Annual savings:

**\$2.3M**

# TFA implementation and support scoping efforts

## Scoping projects:

**Eastern Europe:** Ukraine (regional project with Moldova and Armenia)

**MENA:** Egypt, Morocco (Regional project including a third country)

**Africa:** ePhyto – Benin, Liberia, Congo, Sierra Leon, Cabo Verde (six country regional project)

**Other countries:** Bangladesh, Cameroon, Cambodia, Mauritania, Nepal, Togo, Laos

# How to engage with the Alliance

## Contact Us:

[info@tradefacilitation.org](mailto:info@tradefacilitation.org)

- **Engage with us to amplify impact.** We welcome your support in raising awareness, sharing progress, and helping strengthen visibility around ongoing projects.
- **We will keep you informed early.** As soon as new countries enter the scoping phase, we will share an early heads-up so you can stay aligned, anticipate engagement needs, and help us close the loop as scoping progresses.
- **Bring us your ideas.** If you see opportunities to advance TFA implementation, reach out to discuss needs, explore feasibility, and identify where a project could add value.

# Other ways to engage beyond projects

- **Collaborate with us to communicate results** through joint event participation, coordinated publications, and amplification via social media and mission channels.
- **Co-develop knowledge products** — such as briefs, lessons-learned papers, or best-practice notes — grounded in evidence from project implementation.
- **Share relevant government contacts when appropriate:** facilitating introduction to a focal point in capital greatly accelerates project scoping and coordination.
