Assistance required for implementation

• Mettre en place un cadre légal et organisationnel pour la supervision de l'entretien de l'information
• Mettre en place un bureau unique chargé de collecter, centraliser et diffuser les informations en rapport avec le commerce
• Formation du personnel du dit bureau dans le domaine de l'information et de la communication
• Traduction des textes de lois publiées en Kirundi, Français et en Anglais

Tags: *Information and communication technologies (ICT), Legislative and regulatory framework, Human resources and training*

Donor Members: European Union

Donor Agencies: International Trade Centre, Common Market for Eastern and Southern Africa

Progress reported

All adopted legislation is published on the Government's website. The country regularly publishes information on the websites of the Burundi Revenue Office (OBR), the Ministry of Justice and the Ministry responsible for trade. The information is published in a non-discriminatory manner.
A trade information portal is currently being set up under the regional EU-EAC-MARKUP project financed by the European Union. The ITC is responsible for its implementation.
Technical assistance and capacity building support needs include:
- Establishment of a legal and organizational framework to supervise the maintenance of information
- Establishment of a single office responsible for collecting, centralizing and disseminating trade-related information
- Training of staff from the above-mentioned office on information and communication
- Translation of legislation published in Kirundi, French and English

• Equiper et former le personnel du bureau du point d’information

Tags: *Information and communication technologies (ICT), Infrastructure and equipment, Human resources and training*

Donor Agencies: United Nations Conference on Trade and Development, TradeMark Africa

Progress reported

There is no single enquiry point providing information on regulations, fees, procedures and formalities currently applied in Burundi. Each agency has an information service for its area of competence.

Technical assistance and capacity building support needs include:
- Establishment of a single enquiry point
- Provision of equipment and training for staff from the enquiry point

Assistance required for implementation

• Créer un service en charge des décisions anticipées à l'OBR pour améliorer la mise en application des décisions anticipées
• Formation du personnel et adoption des meilleures pratiques internationales dans le but de renforcer les capacités institutionnelles en matière d'évaluation et des règles d'origine
• Créer un cadre légal des décisions anticipées
• Mettre en œuvre des mécanismes et procédures en matière de décisions alignées sur la loi de l'EAC et de l'AFE

Tags: *Legislative and regulatory framework, Institutional procedures, Human resources and training*

Donor Agencies: to be determined

Progress reported

There are no official regulations on advanced rulings. In practice, a user may request information from customs officials and receive an oral or email response. Within the OBR, a specialized service known as the Directorate for Customs Services and E-Business handles all matters relating to trade operations and informs traders of the current rules.

Technical assistance and capacity building support needs include:

- Creation of a service responsible for advance rulings at the OBR, in order to improve the implementation of advance rulings
- Training of staff and adoption of international best practices, with a view to building institutional capacity in the area of valuation and rules of origin
- Establishment of a legal framework for advance rulings
- Implementation of mechanisms and procedures for rulings aligned with East African Community (EAC) and TFA legislation

• Equiper suffisamment les laboratoires du BBN, du Min agri, des Centres de transit
• Créer un système de gestion de tous les laboratoires en charge des essais
• Renforcement des capacités du personnel en charge des procédures d'essai

Tags: *Legislative and regulatory framework, Infrastructure and equipment, Human resources and training*

Donor Members: European Union

Donor Agencies: Common Market for Eastern and Southern Africa, World Bank

Progress reported

This provision is partially implemented by the Burundi Bureau of Standards and Quality Control (BBN). BBN laboratories have recently been provided with high-quality infrastructure through the regional MARKUP project financed by the EU. However, it remains insufficient.

A draft national quality policy law is currently being prepared and is pending adoption by the Government.

Technical assistance and capacity building support needs include:

- Establishment of a legal framework for test procedures
- Provision of sufficient equipment for the laboratories of the BBN, the Ministry of Agriculture, and transit centres
- Creation of a system for the management of all laboratories responsible for tests
- Capacity building for staff responsible for test procedures

Tags: *Information and communication technologies (ICT), Infrastructure and equipment*

Donor Agencies: World Customs Organization, United Nations Conference on Trade and Development, TradeMark Africa

Progress reported

The OBR is implementing this provision by using the latest version of the Automated System for Customs Data (ASYCUDA) World system, which allows for the automation of certain processes, including the registration and risk-based processing of declarations submitted remotely.

The country has also conducted a national study on the time required for the release of goods in Burundi, developed with support from the WCO.

Technical assistance and capacity building support needs include:

- Equipment of technical services
- Establishment of a single window for foreign trade
- Construction and computerization of one-stop offices at all border crossings for goods

Tags: *Information and communication technologies (ICT), Infrastructure and equipment, Human resources and training*

Donor Agencies: TradeMark Africa, United Nations Conference on Trade and Development

Progress reported

Initiatives for the establishment of the single window have been launched with support from UNCTAD.
The country has one-stop border posts at Kobero/Kabanga, Gasenyi/Nemba and Ruhwa and is seeking to ensure the interconnectivity of other border posts so as to reduce the time required for formalities for the import and export of products.

Technical assistance and capacity building support needs include:

- Establishment of the single window, providing it with the means to reduce the time required for formalities for the import and export of products
- Capacity building for staff responsible for running the single window once implemented
- Provision of IT equipment for border post offices
- Ensuring interconnectivity among cross-border posts through broadband internet
- Construction of one-stop offices at all borders
- Ongoing training of staff
