Technical Assistance detailled information

1.1 Publication

C

1.1.1 (a), (b), (c), (d), (e), (f), (g), (h), (i), (j)

Indicative date of implementation
31 December 2021

Definitive date of implementation
30 April 2024

Assistance required for implementation

- Legal framework for the publication of information on import/export procedures
- Training for technicians on online publication procedures
- Provision of ultra-fast broadband for all ministries and control agencies, and the Permanent Secretariat of the National Committee on Trade Facilitation (CNFE)
- Supply of networking material for ministries and control and inspection agencies

Tags: *Information and communication technologies (ICT), Legislative and regulatory framework, Infrastructure and equipment, Human resources and training*

Donor Agencies: African Development Bank

Progress reported

Under the project to develop corridors and trade facilitation, which it finances, the African Development Bank (AfDB) included a trade facilitation component. In this connection, the National Trade Facilitation Committee (NTFC) of Madagascar was consulted in 2019 with regard to the component's strategic direction and identifying the activities of the NTFC road map to be included in it. The strategic priorities adopted include the establishment of a trade information portal.
The AfDB is therefore providing technical assistance for the recruitment of two consultancy firms to carry out the following missions:

Mission Assistance à la Maîtrise d'Ouvrage, AMOA (Project Management Assistance Mission):
- Compilation and specification of the comprehensive requirements for the creation and establishment of the Portail d'Information Commerciale, PIC (Trade Information Portal);
– Specification of the operational requirements and description of the overall operational process of the PIC;
– Collection, collation and authentication of the relevant documents and resources;
– Management and monitoring of deliverables/successful execution of the technical mission.

Mission Maître d'œuvre, MOE, (Project Management Mission):
- Definition and guarantee of the technical design of the PIC in line with what has been identified by the AMOA. The MOE will provide the function architecture document and the technical architecture document. It is basically responsible for the development of the PIC;
-Planning, design and construction/setting up of the website (PIC);
-Digitization of documents and optimization of the document filing system;
-Technical support for solution deployment and assistance/guarantee (Tierce Maintenance Applicative, TMA (Third-Party Application Maintenance)).

C

1.2.1 (a), (b), (c)
1.2.2
1.2.3

Indicative date of implementation
31 December 2021

Definitive date of implementation
30 April 2024

Assistance required for implementation

- Legal framework for the creation and operation of the portal and the establishment of a database
- Establishment of a comprehensive tariff database and a trade information portal
- Recruitment of a consultancy firm to conduct a feasibility study and establish a comprehensive tariff database and a trade information portal
- Purchase of the new ICT equipment and software needed to establish a comprehensive tariff database and a trade information portal
- Establishment of a technical team of qualified resource persons to manage the portal and a technical team to manage the comprehensive tariff database
- Provision of IT equipment, office space and furniture for the specific teams
- Subsidy for the provision of ultra-fast broadband for all ministries and control agencies, and the Permanent Secretariat of the CNFE
- Supply of networking material for ministries and control and inspection agencies that will communicate relevant information for publication
- Maintenance of the new ICT material obtained

Assistance required for implementation

- Benchmarking for the assessment of best practices with respect to advance rulings
- Alignment of national regulations with international standards and best practices
- Revision of the legal framework
- Implementation of effective infrastructure for the application in Madagascar of the advance ruling on origin and tariff classification
- Implementation of a regulatory framework on advance rulings
- Training and awareness-raising for the operators and authorities concerned on the application of advance rulings

Tags: *Legislative and regulatory framework, Infrastructure and equipment, Human resources and training*

Donor Agencies: Global Alliance for Trade Facilitation

Progress reported

In September 2020, the Global Alliance for Trade Facilitation carried out a scoping mission of the NTFC priority projects in order to decide on the projects it would support. At the end of this mission, the project for the implementation of advance rulings was adopted.

Advanced rulings will allow operators, prior to import, to be certain of the taxes and fees they will have to pay and the regulations to which they will be subject, depending on whether the decision is binding in terms of tariff classification or origin.

The Global Alliance for Trade Facilitation provides assistance in the following areas:
Legislation and regulations
Processes and procedures
Internal organization
Information systems
Training and support for change
Communications
Project management

5.1 Notifications for enhanced controls or inspections

C

5.1 (a), (b), (c), (d)

Indicative date of implementation
31 December 2023

Definitive date of implementation
31 December 2035

Assistance required for implementation

- Establishment of a system for issuing notifications on enhanced controls and inspections of goods based on risk
- Training on the SAFE framework of standards and other relevant international standards for technicians carrying out controls and inspections of goods

Tags: *Information and communication technologies (ICT), Human resources and training*

Donor Agencies: to be determined

Progress reported

To date, Madagascar has not received any technical assistance or capacity building support from donors.

5.3.1
5.3.2
5.3.3

Indicative date of implementation
31 December 2023

Definitive date of implementation
31 December 2035

Assistance required for implementation

- Alignment of national regulations with international standards and best practices
- Development of national quality standards and implementation of national accreditation and quality certification processes
- Review of the Standards Law
- Upgrading of the ICT infrastructure of the Madagascar Bureau of Standards (BNM)
- Specialized software services for the new laboratory
- Establishment of a computerized system for enhanced export controls
- Establishment of a rapid alert system for imports
- Support for the accreditation of test laboratories
- Food technology laboratory at the Ministry of Agro-Industry and Food Security
- Modernization of animal health laboratories, including infrastructure and equipment, at the Ministry of Agro-Industry
- Provision of rapid food-testing equipment and usable elements for on-the-spot decision-making concerning the release of food consignments at the Ministry of Health and Quality of Life
- Strengthening of pest and disease diagnosis facilities at the Ministry of Agro-Industry and Food Security
- Provision of certified mobile laboratories
- Capacity building for the national chemical and biological residues laboratory through the purchase of equipment, material and reagents, the enhanced implementation of diagnostic methods, increased staff training and strengthened laboratory infrastructure
- Specialized software services for disease surveillance at the Ministry of Agro-Industry and Food Security
- Training and capacity building for officials at the Madagascar Bureau of Standards (BNM) with regard to test procedures and for technicians/laboratory researchers
- Benchmarking for the assessment of best practices
- Awareness-raising for all stakeholders on procedures and regulations relating to test procedures

Donor Agencies: African Development Bank

Progress reported

In September 2019, the African Development Bank (AfDB) carried out a mission to define the strategic direction and detailed activities of the trade facilitation component of the project to develop corridors and trade facilitation. This mission was an opportunity to consult with the NTFC as part of the implementation of the Trade Facilitation Agreement at the national level. Following these consultations, introducing the strategic direction of the component and identifying the priority activities on the NTFC road map, the modernization of customs systems is one of the strategic priorities set for execution of the component. The customs administration will therefore need to build capacities risk management.
The AfDB provides technical assistance in training and support for customs risk analysis and management and gap analysis.

This technical assistance relates to the following areas:
-Gap analysis of customs risk management
-Training of customs officials in customs risk analysis
-Designing a data warehouse for risk-based customs control
-Econometric modelling and exploration of Big Data
- Introduction of automatic and dynamic selectivity, based on econometric models of risk analysis, integrated into ASYCUDA
-Identifying information technology equipment requirements

Assistance from development partners is thus required for the acquisition of computer equipment and materials from the gap analysis study.

Donor Agencies: Southern African Development Community - Trade related Facility

Progress reported

Between August 2019 and April 2020, the National Trade Facilitation Committee obtained support from the TRF in the analysis of Madagascar's gaps in border management.

This study resulted in the production of a report on the status of cooperation between border agencies in Madagascar and the formulation of recommendations to be implemented for alignment with TRF provisions.

The assistance of development partners is therefore required to implement these recommendations, in particular on the following points:
-Support for updating regulatory and procedural instruments
-Alignment of national regulations with international standards and good practices
-New information and communications technologies (NICT) equipment and infrastructures
-Capacity building in monitoring, safety and security, trade facilitation

Benchmarking to assess best practices in coordinated border management - Alignment of national regulations with international standards and good practices - Establishment of the necessary technical infrastructure – Awareness-raising for the strategic actors concerned.

C

10.1.1 (a), (b), (c), (d)

Indicative date of implementation
31 December 2023

Definitive date of implementation
31 December 2035

Assistance required for implementation

- Establishment of a national trade observatory
- Benchmarking for the assessment of best practices regarding the trade observatory
- Preparation of a pocket guide or manual for importers and exporters
- Harmonization of formalities and documentation requirements
- Alignment of formalities and documentation requirements with international standards and best practices
- Training and awareness-raising for border officials and authorities in respect of formalities and documentation requirements
