ELIMINATION OF CONSULARIZATION REQUIREMENT

COMMUNICATION FROM JORDAN

The following communication, dated 24 August 2020, is being circulated at the request of the delegation of Jordan, for Members' information.

________________________

The Government of Jordan has the honour to inform Members of the elimination of the consularization or legalization requirement on the list (the invoice) which sets the prices and origin of goods, by the Consular Missions or the Chambers of Commerce.

Consularization or legalization is no longer a requirement to accept the list (the invoice) according to the amended Customs Law no. 33 of the year 2018. Original copies are sufficient in this case.
